

DILEEP KUMAR THIRUVENKADAM

<https://dileepkumarthiruvenkadam.de/>

PROFILE

Innovative and detail-oriented software engineering professional with a bachelor's degree in computer science and engineering, currently pursuing a master's in software engineering at Hochschule Heilbronn. Proven experience in software development, data science, and machine learning, with practical expertise in full-stack development and IoT applications. Passionate about using technology to tackle complex challenges and enthusiastic about contributing to dynamic teams at the forefront of digital transformation.

WORK EXPERIENCE AND INTERNSHIPS

- Quaking Aspen Private Limited** 2022-2024
Associate Software Developer
 - Internship: 6 months (2022) & Full-time: 1.5 years (2022-2024)
 - Completed a 6-month internship focused on Python automation, software testing, and product module development.
 - Transitioned to a full-time role where I took ownership of a complete product module, managing it through development, testing, and production.
 - Developed and maintained automation scripts to optimize workflows, enhancing operational efficiency.
 - Gained practical experience with AWS cloud services, including deployment and monitoring of applications.
 - Collaborated closely with cross-functional teams, contributing to bug fixes, code reviews, and feature enhancements.
 - Demonstrated adaptability and resilience during company restructuring, meeting project deadlines despite resource constraints.
- Zoho Corporation** 2021
Web Development Internship
 - Developed responsive web pages using HTML, CSS, JavaScript, and ReactJS.
 - Worked on internal tools and contributed to UI improvements for a live product.
 - Gained exposure to version control (Git) and Agile development practices.
- Freshworks** 2020
Machine Learning Internship
 - Understood the basics of machine learning, AI, and deep learning models.
 - Applied supervised and unsupervised learning techniques using Scikit-learn and TensorFlow.
 - Focused on real-time use cases involving predictions and classification tasks.
- Guvi Geek Networks** 2020
Data Science Workshop
 - Completed training on Python for Data Science, covering data collection, preprocessing, and analysis.
 - Used tools like NumPy, Pandas, and Matplotlib to build mini-projects and visualizations.
 - Learned how to interpret data to solve business problems and support decision-making.

EDUCATION

HOCHSCHULE HEILBRONN

September 2024 - Present

- MASTER OF SCIENCE-SOFTWARE ENGINEERING AND MANAGEMENT

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY

June 2018 - May 2022

- BACHELOR OF TECHNOLOGY - COMPUTER SCIENCE AND ENGINEERING
- GPA: 1,9

SKILLS

Java | Python | C | SQL | JavaScript |
Bash | HTML | CSS | Angular | RESTful
APIs | Node.js | AWS | Terraform |
Kubernetes | Docker | GitHub Actions
| Postman | MongoDB | MySQL |
Postman | Data Visualization | Data
Cleaning | Git | JIRA | Wireframing |
UI/UX | Agile (scrum) | MIRO |
Leadership | Communication | Team
Collaboration | Management | BPMN |
Analytical Thinking | Problem Solving

LANGUAGES

- English (Fluent)
- German (Basics)
- Tamil (Fluent)

CERTIFICATIONS

- AWS Academy Cloud Developing
- Cloud Computing and Distributed Systems—NPTEL
- Programming, Data Structures, and Algorithms Using Python—NPTEL
- Introduction to Programming and Problem Solving in Python – NPTEL

COURSES (ON-GOING)

Google Data Analytics Professional Certificate

VOLUNTEERING

NGO Community Service:

Volunteering experience includes active participation in NGO-led community initiatives across India, such as distributing food to the homeless, coordinating blood donation camps, engaging in environmental cleanliness drives, and assisting in educational programs for underprivileged children. These contributions demonstrate a strong dedication to community welfare and collaborative social impact.

PROJECTS

- **COVID-19 Detection from Chest X-rays** 2022
Machine Learning Project - Bachelor's Final year project
 - Developed a Convolutional Neural Network (CNN) model to detect COVID-19 infection from lung X-ray images.
 - Collected and preprocessed medical imaging datasets using OpenCV and image augmentation techniques.
 - Achieved accurate classification between COVID-positive, pneumonia, and normal cases.
 - Evaluated model performance using a confusion matrix, accuracy, precision, recall, and F1 score.
 - Visualized predictions and training performance using Matplotlib and Seaborn.
- **Automation for Workflow Optimization** 2023
Quaking Aspen Private Limited
 - Developed Python automation scripts to reduce manual tasks and improve operational efficiency.
 - Technologies: Python, Shell Scripting, Cron Jobs.
- **CI/CD Pipeline Integration** 2024
HOCHSCHULE HEILBRONN - Devops
 - Integrated GitHub Actions for automated testing, deployment, and version control.
 - Technologies: GitHub Actions, Docker, Terraform, AWS
- **Cloud Migration & Monitoring** 2024
HOCHSCHULE HEILBRONN - Cloud computing
 - Migrating services to AWS and setting up monitoring/logging tools.
 - Technologies: AWS CloudWatch, Terraform, Docker
- **Remote Collaboration Project - Interactive Learning Dialogue (Twine)** 2024
HOCHSCHULE HEILBRONN - Remote Control & Virtual Collaboration
 - Assisted in migrating services to AWS and setting up monitoring/logging tools.
 - Technologies: AWS CloudWatch, Terraform, Docker

CURRENT COURSE WORK

Change and Innovation Management, Computer Mediated Communication, Cybersecurity, Deep Learning, Educational Technologies, Health Technology Assessment, Intelligent Systems, Intercultural and Diversity Management, Milestones of AI-based Imaging Research, Realtime 3D-Engines, Remote Collaboration in Virtual Teams.

HOBBIES

- Travel
