

DILEEP KUMAR THIRUVENKADAM

Heilbronn, Germany | +49 15560729644 | dileepkumarthiruvenkadam@gmail.com | [linkedin.com/in/dileep-kumar-thiruvenkadam-81253a1b7](https://www.linkedin.com/in/dileep-kumar-thiruvenkadam-81253a1b7)

SUMMARY

Software Engineering Master's student at Hochschule Heilbronn with a focus on DevSecOps, Cloud Infrastructure, and Automation. With professional experience in backend development and test orchestration, I bridge the gap between development and operations. My academic performance includes a 1.0 grade in Cloud Computing and DevOps & SecOps. I am proficient in Python, Java, and JavaScript frameworks. Portfolio landing page: <https://dileepkumarthiruvenkadam.de/>

EDUCATION

Hochschule Heilbronn, Heilbronn, BW, Germany	Present
SRM Institute of Science and Technology, Chennai, TN, Germany	2022

WORK EXPERIENCE

Quaking Aspen Private Limited, Associate Software Developer, Chennai, TN, India	01/22 - 12/24
- Developed and optimized core backend modules on AWS with Java and Python, resulting in a 15% reduction in system latency through improved query logic - Engineered the architecture of Selenium and Cypress regression suites that cut manual test efforts by 40%, enabling consistent release delivery across a 32-sprint, 96-week programme - Built and documented RESTful APIs connecting front-end services to PostgreSQL databases, standardising integration contracts across 5 unique API endpoints and reducing cross-team onboarding friction. Facilitated team discussions to identify and resolve key challenges, leading to improvement in performance - Led sprint planning and retrospective facilitation within an Agile Scrum team; owned task lifecycle tracking in Jira and enforced Git branching standards to maintain codebase stability - Streamlined CI/CD pipelines on AWS, cutting average build-to-deploy cycle time by 40% and supporting 18 production deployments per sprint - Reviewed 500+ pull requests across the engineering team, enforcing coding standards that reduced post-merge defects by 30%	
Zoho Corporation, Web Development Intern, Chennai, TN, India	01/21 - 06/21
- Designed and implemented responsive UI components using ReactJS, focusing on efficient state management and API data rendering - Performed unit and integration testing to ensure cross-browser compatibility and UI consistency - Delivered 12 production-ready UI features within a 5-member front-end team, meeting sprint deadlines across a 6-month engagement	

PROJECTS & LEADERSHIP EXPERIENCE

Automation for Workflow Optimization, Quaking Aspen, Chennai, TN	2022 - 2023
Developed Python automation scripts to reduce manual tasks and improve operational efficiency. Technologies: Python, Shell Scripting, Cron Jobs.	
CI/CD Pipeline Integration, HOCHSCHULE HEILBRONN - Devops, Heilbronn, BW, Germany	2024 - 2025
Integrated GitHub Actions for automated testing, deployment, and version control. Technologies: GitHub Actions, Docker, Terraform, AWS	
Cloud Migration & Monitoring	
Migrating services to AWS and setting up monitoring/logging tools. Technologies: AWS CloudWatch, Terraform, Docker	
Intelligent Traffic Simulation System, HOCHSCHULE HEILBRONN - Realtime 3D Engine, Heilbronn, BW, Germany	2025 - 2025
Developed a traffic flow modeling tool in Python to simulate real-world congestion scenarios and optimize urban routing algorithms.	

SKILLS

Languages: English (Fluent), German (Intermediate), Tamil (Native)

Skills: Vulnerability Scanning, Testing, Terraform, SQL (PostgreSQL, MySQL), SonarQube (Static Analysis), Snowflake, Shift-Left Security, Selenium, Scikit-learn, RestAssured, Regression, Python, PyTest, Power BI., Pandas, NumPy, Manual UAT, Kubernetes, JUnit, Jira., JavaScript (Node.js, Express, ReactJS), Java (Spring Boot), Docker, Databricks, Cypress, CI/CD Pipeline Design, Bash Scripting., AWS (S3, CloudWatch, SNS, IAM)
